Objective

Cybersecurity professional with 3+ years in SOC operations seeking a role in deeper incident investigation and threat analysis, leveraging expertise in SIEM, SOAR, and EDR platforms to strengthen organizational security posture.

Experience

Technology Analyst — Infosys | Jan 2026 – Present

- Lead threat analysis and end-to-end management of high-priority security incidents.
- Drive proactive threat hunting using CrowdStrike Falcon and MS Defender for Endpoint.
- Apply MITRE ATT&CK to refine detection logic against evolving adversary TTPs.

Senior System Engineer — Infosys | Mar 2025 – Dec 2025

- Monitored real-time alerts via IBM QRadar SIEM to detect threats across enterprise assets.
- Executed automated and manual IR playbooks in Palo Alto XSOAR, reducing response times.
- Conducted triage, investigation, and escalation of security events by severity and business impact.
- Contained and remediated advanced endpoint threats using CrowdStrike Falcon and MS Defender.

System Engineer — Infosys | Nov 2022 – Feb 2025

- Performed 24/7 SOC monitoring, alert triage, and log analysis using IBM QRadar.
 - Contributed to SOC runbook development and refined alert handling workflows.
 - Engaged in continuous threat hunting to proactively identify indicators of compromise.
-

Education

A.M. Reddy Memorial College of Engineering and Technology B.Tech — CGPA: 7.8 / 10

Technical Skills

SIEM: IBM QRadar | **SOAR:** Palo Alto XSOAR | **EDR:** CrowdStrike Falcon, MS Defender for Endpoint **Frameworks:** MITRE ATT&CK | **OS:** Windows, Linux **Core Skills:** Incident Response · Alert Triage · Threat Hunting · Log Analysis · Security Monitoring
